Combining art and design with intriguing function, the designers at Flambeau have created a stunning collection of luminaires.

Flambeau showcases the works of renowned New Orleans designers Paul Grüer and Elaine Gleason, as well as Baton Rouge sculptor, Benjamin Burts. Each designer and artist has united sophisticated forms and shapes with distressed finishes of gold and silver patinas to create 21st Century antiques.

With meticulous attention-to-detail and quality manufacturing, Flambeau's lamps, chandeliers, pendants, and sconces will add a touch of intrigue and whimsy to any room. Often Flambeau Lighting's designs become the conversation piece in the most distinctive interior environments.

Paul Grüer

"I have always been influenced by the city of New Orleans. The patina of age and gentle decay has found its way into the finish of my work. Like the city, sophisticated, fun and always just a little off-center".

Whether as an art gallery director, sculptor, or designer of fine jewellery, this long-time resident of the "Big-Easy" and his work, have for years been an integral part of the New Orleans art scene. Chosen as the top artist in New Orleans and recipient of the WYES Patron Artist Award, Grüer has also been nationally recognised winning Alpha Awards for his textile and lighting designs.

Grüer's use of lighting as an expression of his creativity first came about when a friend challenged him to create a chandelier to look like a pair of earrings he had designed for her. Pleased with the results, he soon began creating other sculptural lighting pieces inspired by his jewellery designs, and for years, these one-of-a-kind custom pieces were commissioned and sold only through a hand full of select art galleries and interior designers. In 2001, Grüer entered into a licensing agreement with Flambeau Lighting to create an ongoing series that would be crafted and finished by artisans, in much the same manner as his original Studio pieces.

Today, Paul Grüer's "FLAMBEAU Lighting Collection" is a gallery of sculptural, functional art that manifests itself in the form of table lamps, floor lamps, chandeliers, pendants, mirrors and sconces. He has created a collection that is certain to add intrigue to any interior design.

Elaine Gleason

Elaine Gleason designs and constructs striking lighting fixtures for both residential and commercial interiors. These sculptures are inspired by the rhythm and ambiance of her native New Orleans.

For 10-years Gleason has focused on the design and manufacture of metal furniture and lighting at her New Orleans studio. Her designs are evocative of the culture she lives in; the classic architecture, the indigenous music, and lush foliage that saturates New Orleans.

Gleason's art has been shown at the New Orleans Jazz Fest, Art in Bloom at the New Orleans Museum of Art, D.O.C.S. Gallery, New Orleans Academy of Fine Art, Philadelphia Rosen Show, as well as at the International Atlanta Gift Show, New York International Gift Show and the High Point Furniture Market.

She studied art at the University of Arizona, and received here BFA degree, with a focus on Sculpture, from the University of Georgia.

Benjamin Burts

There is a life force palpable in every Benjamin Burts creation. From a genesis of cold clay evolve works of art that exude an almost human warmth and texture. Burts says he doesn't put it there; he says it is there.

"I work with clay in a very free, spontaneous way, allowing it to become what it wants to become. I start with an idea, but the idea only motivates me to begin. Then it becomes a collaboration between the clay and me to see what it is supposed to be," says Burts.

Faces and spiritual forms rise ethereally to the surface in many of his designs and through a unique surfacing technique after kiln firing, he applies gold and silver colouring, "colours natural to the surface, shape and form," remarks Burts.

His work has been exhibited in fine galleries across the USA. He is inspired by neoclassic design blended with the culture of the New Orleans Garden district.
